### **Clean Up Riverside's Environment Program Unauthorized Program Change Letter Sent from Unknown Source**

**Riverside, Calif.** –Recently, a letter misrepresenting a change in the City's Clean Up Riverside's Environment (C.U.R.E.) Program was distributed by an unknown source to some City of Riverside residents. The letter advises residents to separate certain recyclables and place them in a trash bag next to their blue container instead of inside the recycling container provided by the City. If you received such a letter, please disregard this direction.

Placing your recyclables in your blue recycling container continues to be the most efficient and cost effective way to collect recycling. A list of items that can be placed in your recycling container can be found on our website [www.riversideca.gov/CURE](http://www.riversideca.gov/CURE).

For more information please visit the CURE website at [www.riversideca.gov/CURE](http://www.riversideca.gov/CURE) or contact the Riverside Call Center at (951) 826-5311.
